

Keep your kids covered *with free or low-cost health insurance.*

Medicaid and CHIP renewals happen every year.

Connect with COMPASS to make sure your children stay covered for checkups, immunizations, doctor and dentist visits, hospital care, mental health services, prescriptions and more.

Even if they recently lost Medicaid or CHIP, your child may still qualify.

- A family of three making \$60,000 annually will have an average monthly premium of \$58 per child in CHIP, plus any co-pays. No family makes too much money to qualify for CHIP. [See income guidelines.](#)
- Children may be eligible, even if parents or guardians don't qualify.

***With free or low-cost options available,
it's worth a check!***

Enroll anytime, year-round, with Medicaid and CHIP.
