

2024 State of Children's Health Counties By the Numbers - Data Sources

County Type: Pennsylvania Partnerships for Children's analysis of county-level urban and rural information from the 2020 Census provided by the U.S. Census Bureau, Geography Division.

Rural (less than 25% urban housing units)	Bedford, Cameron, Clarion, Forest, Fulton, Greene, Huntingdon, Juniata, Perry, Pike, Potter, Somerset, Sullivan, Susquehanna, Tioga, Wayne, Wyoming
Rural-mix (25% to 49% urban housing units)	Adams, Armstrong, Bradford, Carbon, Clearfield, Clinton, Crawford, Elk, Fayette, Indiana, Jefferson, McKean, Mifflin, Monroe, Montour, Snyder, Union, Venango, Warren
Urban-mix (50% to 74% urban housing units)	Beaver, Berks, Butler, Cambria, Centre, Columbia, Franklin, Lawrence, Lycoming, Mercer, Northumberland, Schuylkill, Washington, Westmoreland, York
Urban (75% or more urban housing units)	Allegheny, Blair, Bucks, Chester, Cumberland, Dauphin, Delaware, Erie, Lackawanna, Lancaster, Lebanon, Lehigh, Luzerne, Montgomery, Northampton, Philadelphia

Population: US Census Bureau, Population Division, 7/1/2023 County Characteristics Resident Population Estimates.

Uninsured: US Census Bureau, 2023 American Community Survey (1-year estimates)

By age: Table B27001

By sources of coverage: Table B27010, Medicaid/CHIP: Medicaid/means-tested public coverage only and Medicare and Medicaid/means-tested public coverage

By Medicaid eligibility: Table C27016, under 1.38 poverty threshold

Disproportionality Index: Pennsylvania Partnerships for Children's analysis of 2022 American Community Survey (5-year estimates), Tables C27001(A-G, I). The index is calculated by comparing the uninsured child count to the total child population of the same race and ethnicity category.

- An index of less than 1.0 indicates underrepresentation of that race category in the uninsured population.

- An index of 1.0 indicates no disproportionality.

- An index of 1.1 and greater indicates overrepresentation of that race category in the uninsured population. For example, an index of 3.0 means the race group is represented in the uninsured population three times its rate in the general child population.

The 2023 American Community Survey (1-year estimate) was used for the Pennsylvania fact sheet.

Medicaid: Pennsylvania Department of Human Services, Bureau of Program Support (September 2024)

By race/ethnicity: 10/11/2024

By age: 10/11/2024

CHIP: Pennsylvania Department of Human Services, Bureau of Program Support (September 2024)

By race/ethnicity: DHS unable to provide distinct disaggregated CHIP enrollment data.

By age: DHS unable to provide CHIP enrollment data by age.

Pennie™: Pennsylvania Health Insurance Exchange Authority (9/30/2024)

By race/ethnicity: 9/30/2024

By age: 9/30/2024
